

Xerox[®] ColorQube[®] 8580 Colour Printer

The ColorQube 8580 colour printer is a powerful and an environmentally friendly printing solution that's simple and highly productive with the advantage of superior colour output.

More colour performance, for less

- Incredible detail and halftones. 2400 FinePoint™ print resolution ensures exceptional print quality.
- **Always superior colour.** Solid Ink gives your documents rich, vibrant colours on all media, including recycled paper.
- **Wide media range.** Print on everything from plain paper to labels, envelopes, card stock and business cards.
- The colours you expect. PANTONE® approved solid-colour simulations and Xerox colour correction technology deliver results that always match your expectations.
- **No time lost for colour.** The ColorQube 8580 prints black and white and colour at the same fast speed.

The right fit for any environment

- **Choose productivity.** Add more memory to enable a variety of security and time-saving capabilities with a choice of two productivity kits.
- Print when you're ready. With a first-page-out-time as fast as 5 seconds.
- Easy expandability. Adding additional media trays increases total media capacity up to 2,200 sheets for periods of high workload and enables multiple tray sources for your diverse office printing needs.
- **Intuitive colour correction.** The Colour By Words feature lets you select desired colour modifications from a simple drop-down list.
- Small footprint with optional Wi-Fi capabilities. The ColorQube 8580 fits almost anywhere in your work space, whether on your desk or in a central location. Plus, with optional Wi-Fi, it can be placed anywhere in the office.
- Save shipping costs and storage space. Compared to toner, Solid Ink's smaller packaging costs less to ship and is small enough to fit in a desk drawer.
- Apple® AirPrint. Simplify printing of email, photos and important office documents directly from your Apple products with no drivers to install.
- Mopria® certified. Mopria certification simplifies the mobile printing experience for tablets and smartphones to many printing devices, including the ColorQube 8580.

Your office, greener

- Less waste, less impact. Packaging for the printer and Solid Ink sticks helps you create up to 90% less waste, lower Life Cycle energy demand and a smaller carbon footprint than comparable laser printers.
- Earth Smart print driver settings. Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.
- **Intelligent operation.** Intelligent Ready feature learns your usage patterns to optimise power consumption and productivity.
- **Bundled GreenPrint software.** Use the standard GreenPrint tool to help you print only the pages you want for reduced paper and ink usage.
- The optional Xerox® Wireless Print Solutions Adapter seamlessly connects your Xerox® printer or MFP to modern mobile and desktop workflows, regardless of your office environment.
